

CHAPTER 40

ZONING CODE

ARTICLE I – STATUTORY AUTHORITY

**40-1-1**        **AUTHORITY AND PURPOSE.** In accordance with State law (**65 ILCS 11/13/1 et seq.**) this Code regulates lots, structures and uses in order to preserve, protect and promote the public health, safety and welfare and to implement the Village Comprehensive Plan adopted in January 2000, as amended. More specifically, this Code is intended to assist in achieving the following objectives:

- (A)            To ensure the provision of adequate light, air, and privacy for the occupants of all buildings;
- (B)            To encourage the development of buildings and uses on appropriate sites in order to maximize community-wide social and economic benefits while accommodating the particular needs of all residents, and to discourage development on inappropriate sites;
- (C)            To protect and enhance the character and stability of sound existing residential, commercial, and industrial areas, and to gradually eliminate nonconforming uses and structures;
- (D)            To protect the public from property damage caused by fire, flooding, poorly controlled storm water runoff, mine subsidence and adverse soil and topographical conditions;
- (E)            To provide adequate and well-designed parking and loading space for all buildings and uses, and to reduce vehicular congestion on the public streets and highways;
- (F)            To ensure the proper regulation of mobile home parks to protect the health and safety of residents;
- (G)            To authorize and regulate the design of planned developments; and
- (H)            To provide for the efficient administration and fair enforcement of all the regulations in this Code.

**40-1-2**        **APPLICABILITY.** This Code shall be applicable to all lands within the corporate limits of the Village. Outside of the Corporate Limits, the unincorporated territory within **one and one-half (1 ½) miles** of the Village is subject to the Madison County Zoning Code (enacted pursuant to Illinois Statutes). Consequently, if proper application is made to Madison County for an interpretation of the Zoning Administrator or for a variance, special use permit, text amendment or rezoning, similar proceedings need not be initiated with the Village. However, in such cases the Village is entitled to notice from Madison County.

**40-1-3**        **INTERPRETATION, CONFLICT WITH OTHER ORDINANCES.** In interpreting and applying the provisions of this Code, they shall be held to be the minimum requirements for the promotion of the public safety, health, convenience, comfort, morals, prosperity and general welfare. It is not intended by this Code to interfere with or abrogate or annul any ordinance, rules, regulations or permits previously adopted or issued, and not in conflict with any of the provisions of this Code, or which shall be adopted or issued pursuant to law relating to the use of buildings or premises and likewise not in conflict with this Code, nor is it intended by this Code to interfere with or abrogate or annul any easements, covenants or other agreements between parties, except that if this Code imposes a greater restriction, this Code shall control.

**40-1-4**        **REPEAL OF CONFLICTING PROVISIONS.** Any regulations previously adopted are hereby repealed if in conflict with this Code or any amendment thereto.

**40-1-5 SEVERABILITY.** The phrases, clauses, sentences, paragraphs, and sections of this Code are severable and if any phrase, clause, sentence, paragraph, or section of this Code shall be declared unconstitutional or otherwise unlawful by the valid judgment, decree, or injunction order of a court of competent jurisdiction, such ruling shall not affect any of the remaining phrases, clauses, sentences, paragraphs, and sections of this Code. In the event that, contrary to the policies, interests, and values of the Village, a court of competent jurisdiction issues a judgment, decree, or injunction order that this Code, or any part thereof, is unconstitutional or otherwise unlawful because of any omission or prohibition in this Code, then all provisions of this Code not specifically declared to be unconstitutional or otherwise unlawful shall remain in full force and effect. In the event that a judgment, decree, or injunction order declaring all or a portion of this Code to be unconstitutional or otherwise unlawful is reversed or vacated by a court of competent jurisdiction, the provisions contained in this Code shall remain in full force and effect.

**40-1-6 EFFECTIVE DATE.** These regulations shall take effect **ten (10) days** after their final passage, approval, and publication as provided by law.

This zoning map is on file in the office of the Village Clerk. This map is hereby adopted and made a part of this Code as if the matters and information set forth by said maps were fully described herein.

(B) **Measurement of Boundaries.** The boundaries of the various districts as shown on the zoning map shall be determined by the boundaries as shown and outlined thereon and when not clearly so determined, by use of the scale shown on said maps unless actual dimensions are noted. Scale and field measurements and map dimensions shall be figured from the center line of streets, highways, alleys and railroad rights-of-way as appropriate. Where uncertainty exists as to the exact location of said boundaries, the following rules shall apply:

- (1) **Center Line as Boundary.** Where district boundaries lie on or within streets, highways, road rights-of-way or railroad rights-of-way, the district boundaries shall be the center line of the same.

- (3) **District Boundaries Dividing Parcels of Land.** In subdivided property or where a district boundary divides a subdivided lot, the location of such boundary, unless the same is indicated by dimensions, shall be determined by the use of a scale appearing on the district map. Where a district boundary divides a platted lot, the zone classification of the greater portion shall prevail throughout the lot.
- (4) **Action in Case of Uncertainty.** In case any further uncertainty exists, the Zoning Board of Appeals shall interpret the intent of the zoning map as to the location of such boundaries.

It shall be unlawful for any person to make any unauthorized change in the Official Zoning Map.

(A) **Permitted Uses.** No structure shall be erected, constructed, reconstructed or structurally altered, nor shall any structure or land or combination thereof, be used unless the use to which the structure and/or land is to be put is listed in the Permitted Use section of the applicable zoning district and the use fully complies with all of the applicable district regulations, except for nonconformities, accessory uses, and special uses.

(B) **Special Uses.** No special use, as designated within this Code, shall hereafter be established unless such use has been approved pursuant to the provisions of **Article X**. Any existing use which was a permitted use prior to the adoption of this Code and which is designated as a special use by this Code may continue as if it were approved as a special use.

(C) **Uses Not Specifically Listed.** In the event a particular use is not listed anywhere in this Code, is not within the same North American Industry Classification System (NAICS) Code as any permitted or special use, and such use is not an accessory use, it shall be considered to be not allowed within the Village. Questions concerning such uses may be referred to the Zoning Board of Appeals.

**40-4-4 ESTABLISHMENT OF SIZE, DIMENSION AND ACCESS CRITERIA.** In order to carry out the purpose and intent and provisions of this Code, size and dimension criteria for particular zoning districts are hereby established. (A)

**Lot Size Requirements.**

- (1) **Reduction of Lot Size or Yards.** No lot or yard existing on the effective date of this Code shall thereafter be reduced in size, dimension, or area below the minimum requirements set out herein, except by reason of a portion being acquired for public use in any manner, including dedication, condemnation, or purchase. Lots or yards created after the effective date of this Code shall meet the minimum requirements established herein.

**ARTICLE VI – OVERLAY DISTRICTS AND SPECIAL PROVISIONS**

**DIVISION I - PURPOSE**

**40-6-1**        **PURPOSE OF OVERLAY ZONES.** Overlay zones are designed to provide additional regulations for certain areas of the Village which require special protection during development, or which receive consideration for a modification in the strict interpretation of district regulations. These areas include the Airport Overlay District, whose boundaries are depicted on the Village zoning map, and areas which have or will be designated as planned developments based on the procedures in **Division III**. Once established, an overlay zone will appear on the Official Zoning Map of the Village.

**40-6-2 - 40-6-25**    **RESERVED.**

**DIVISION II – AIRPORT OVERLAY DISTRICT – RESERVED**

**DIVISION III – PLANNED DEVELOPMENT PROCEDURE (PDP)**

**40-6-26**        **PURPOSE AND INTENT.** The Planned Development Procedure, or PDP, is intended to provide for development incorporating a single type or a variety of related uses which are planned and developed as a unit. A planned development may consist of conventionally subdivided lots or provide for nontraditional techniques of development which are consistent with the intent of the Village’s comprehensive plan and meet the spirit and intent of the Zoning Code. The further purpose of the PDP is to permit the following:

- (A)            A maximum choice in the type of environment available to the public by allowing a development that would not be possible under the strict application of the provisions of this Code.
- (B)            Permanent preservation of common open space and recreation areas and facilities.
- (C)            A pattern of development to preserve natural vegetation, topographic and geologic features.
- (D)            A creative approach to the use of land and related physical facilities that results in better development and design and the construction of aesthetic amenities.
- (E)            An efficient use of the land resulting in more economic networks of utilities, streets, schools, public grounds and buildings, and other facilities.
- (F)            A land use which promotes the public health, safety, comfort, morals, and welfare.
- (G)            Innovations in residential, commercial, and recreational development so that growing demands of population may be met by greater variety in type, design, and layout of buildings and by the conservation and more efficient use of open space ancillary to said buildings.

**40-6-27**        **PDP SIZE AND DENSITY CONTROLS.**

- (A)            The minimum size of any PDP shall be **five (5) acres**.
- (B)            The maximum residential density of any PDP shall be controlled by the underlying zoning district(s) and the maximum floor area ratios listed in **Section 40-6-31(H)**.

**40-6-28**        **APPLICATION PROCEDURE AND AREA PLAN.**

- (A)            The amendment of an area plan or the designation of a portion of the Village as a planned development must be initiated by an application with the proposed area plan, accompanied by the required fee and filed with the Zoning Administrator. The application must be verified by the owner

or owners of record or the contract purchasers. The application must be filed at least **twenty (20) days** prior to the Zoning Board of Appeals meeting at which it is to be first considered.

(B) **Applications.** The application must include the following information. The Village may require that this information be included on or filed with designated forms:

- (1) The name of the proposed PDP development.
- (2) Names, addresses and phone numbers of the owner(s) of record, and engineer, surveyor or designer responsible for the planning, engineering, survey and design.
- (3) Acreage in the entire planned development.
- (4) Legal description of the entire planned development.
- (5) **Five (5) copies** of proposed deed restrictions, protective covenants, and homeowner's association Articles of Incorporation and By-Laws.

## ARTICLE IX – DEVELOPMENT DESIGN AND IMPROVEMENT STANDARDS

### DIVISION I – OFF-STREET PARKING AND LOADING

**40-9-1**      **PURPOSE AND INTENT.** The purpose of this Section is to ensure that an adequate, safe and convenient arrangement of pedestrian circulation facilities, roadways, driveways, off-street parking and loading spaces are provided on every site. Such roads, pedestrian walks and off-street parking and loading facilities shall be designed as an integral part of an overall site design and shall be properly related to existing and proposed buildings and appropriate landscaping. Parking facilities shall be landscaped and screened to the extent necessary to eliminate unsightliness and monotony of large concentrations of parked cars. Parking facilities shall be designed with careful regard to orderly arrangement, topography, landscaping, ease of access and shall be developed as an integral part of an overall site design. Any above ground loading facility shall be screened from public view to the extent necessary to eliminate unsightliness.

**40-9-2**      **INCREASED OR DECREASED PARKING DEMAND.**

(A)      **Increased Parking Demand.** Whenever a building or use constructed or established after the effective date of this Code is changed or enlarged in floor area, number of employees, number of dwelling units, seating capacity or otherwise, parking spaces shall be provided on the basis of the enlargement or change. Whenever a building or use existing prior to the effective date of this Code is reconstructed or is enlarged to the extent of **twenty percent (20%)** or more of floor area, said building or use in its entirety shall then and thereafter comply with the parking requirements set forth herein. Whenever a building or use undergoes a change in use and the parking for the changed use is clearly inadequate to meet the requirements of the premises on a daily basis, the Village may require that the owner or operator of the building or use provide additional parking and/or modify the use of the building to maintain public safety.

(B)      **Decreased Parking Demand.** When a building, structure or site undergoes a decrease in the number of dwelling units, floor area, seating capacity or other unit of measurement specified hereinafter as a means for determining required off-street parking and loading facilities, or when the application of the standards herein would result in a requirement for fewer total off-street parking and/or loading spaces than are provided on the subject site, the available off-street parking and/or loading facilities may be so reduced accordingly; provided that existing off-street parking and loading remaining would equal or exceed the off-street parking and loading requirements resulting from application of the provisions of these standards to the entire building, structure or site as modified.

(D) **Location of Parking or Loading Space.** All required off-street parking or loading spaces shall be provided on the same parcel of land occupied by the use or building to which it is appurtenant; provided, however, that where there are, in the judgment of the Zoning Board of Appeals, practical difficulties in satisfying the requirement for parking space and/or if the public safety or convenience would be better served by another location, the Zoning Board of Appeals may authorize an alternative location for any portion of the required parking for a non-residential use which will adequately serve the public interest, subject to the following conditions:

- (1) Required accessory off-street parking facilities may be provided elsewhere than on the lot on which the principal use served is located and shall not exceed **twenty percent (20%)** of the total parking required, provided that the property occupied as parking is in the same possession, either by deed, by easement, or by long-term lease which has a term equal to or exceeding the projected life of the facility occupied by the principal use, and further provided that the owner shall be bound by covenants filed on record in the Office of the County Recorder of Deeds, requiring the owner and his or her heirs and assigns, as well as subsequent owners, heirs or assigns, to maintain the required number of off-street parking spaces during the existence of such principal use.

- (1) The total number of spaces so located together is not less than the sum of the separate requirements for each use except as provided by **Section 40-9-3(F)(3), 40-9-3(F)(4), and 40-9-23(B).**
- (2) A legally sufficient written agreement assuring the perpetual joint usage of said common parking for the combination of uses or buildings is properly drawn and executed by the parties concerned, approved as to form and execution by the Village Attorney, and filed with and made part of the application for a Building Permit.
- (3) Up to **fifty percent (50%)** of the parking spaces required for a theater (unless the theater's required parking spaces are based on the provisions of **Section 40-9-23(B)**) or other place of evening entertainment, for a church, or for multiple-family residences may be provided and used jointly by banks, offices, retail stores, repair shops, service establishments and similar uses not normally open, used or operated during evening hours if specifically approved by the Zoning Board of Appeals; and provided, however, that written agreement assuring the retention for such purpose shall be properly drawn and executed by the parties concerned, approved as to form and execution by the Village Attorney, and shall be filed and made part of the application for a Building Permit. The Village Board of Trustees shall vote on the special use permit following receipt of the report of the Zoning Board of Appeals or at least **sixty (60) days** after the public hearing on the request if no report is forwarded by the Zoning Board of Appeals. The affirmative vote of a majority of the members of the Village Board of Trustees shall be required to authorize and approve the issuance of any special use permit contrary to the recommendation of the Zoning Board of Appeals.

**40-10-5 CRITERIA FOR REVIEWING APPLICATIONS.** In considering whether or not such application for a special use permit should be granted, it shall be the duty of the Zoning Board of Appeals and the Village Board of Trustees to give consideration to the effect of the requested use on the health, safety, morals and general welfare of the residents of the area in the vicinity of the property in question and the residents of the Village generally. In considering the special use, the Zoning Board of Appeals and the Village Board of Trustees should consider the following:

- (A) Whether the proposed special use is consistent with the Village’s comprehensive plan, and will not impede normal, orderly development of the neighborhood.
- (B) The compatibility with surrounding uses and compatibility with the surrounding neighborhood, including any substantial impact on property values.
- (C) The comparative size, floor area, mass, and general appearance of the proposed structure in relationship to adjacent structures and buildings in the surrounding properties and neighborhood.
- (D) The amount of traffic movements generated by the proposed use and the relationship to the amount of traffic on abutting streets and on minor streets in the surrounding neighborhood in terms of the street’s capacity to absorb the additional traffic and any significant increase in hourly or daily traffic levels.
- (E) The added noise level created by activities associated with the proposed use and the impact of the ambient noise level of the surrounding area and neighborhood.

- (F) The impact of night lighting in terms of intensity, duration, and frequency of use as it impacts adjacent properties and in terms of presence in the neighborhood.
- (G) The impact of the landscaping of the proposed use in terms of landscaped areas, buffers, and screens.
- (H) The potential for the proposed use to remain in existence for a reasonable period of time and not become vacant or unused. Consideration should also be given to unusual single purpose structures or components of a more temporary nature.
- (I) Whether there are any facilities near the proposed use (such as schools or hospitals) that require special protection.

**40-10-6**      **REVIEW OF SPECIAL USE PERMIT.** The Village Board of Trustees, Zoning Board of Appeals, Zoning Administrator, or the designee of any of the above boards or administrators, may review any use which has a special use permit or which is classified as a special use by this Zoning Code to ensure that such use is complying with its special use permit and any other applicable regulations of this Code. Any use which is not in compliance with its permit or the applicable regulations of this Code may be subject to review by the Board of Trustees for possible corrective action or revocation of the special use permit.

**40-10-7**      **REVOCATION OF SPECIAL USE PERMIT.** If a special use has been granted by the Village Board of Trustees for a building to be erected or altered in a zoning district and a building permit has not been applied for with the Village Clerk's office within **twelve (12) months** after date of granting, the special use designation for such building project shall automatically be revoked. If a special use has been granted by the Village Board of Trustees for a special use in a zoning district and the specific use is not commenced within **twelve (12) months** after the date of granting, the special use designation for such use shall automatically be revoked.

The Village Board of Trustees, after a public hearing, may revoke a special use permit for failure of compliance with the regulations and restrictions of this Code or the requirements of the special use permit. **(Ord. No. 2004-06; 04-05-04)**

**40-12-2 COMPOSITION.**

(A) **Membership.** The Zoning Board of Appeals shall consist of **seven (7)** regular members, all of whom shall be residents of the Village appointed by the Mayor and approved by the Village Board of Trustees.

(B) **Length of Term.** The term of office of the members of the Zoning Board of Appeals shall be for **five (5) years.** Vacancies shall be filled for the unexpired term only. Members shall be removed for cause by the Mayor and the Village Board of Trustees upon written charges and after public hearing.

(C) **Officers.** The Mayor shall appoint a Chairman with the advice and consent of the Village Board for a term of **one (1) year.**

(D) **Rules.** The Zoning Board of Appeals shall adopt from time to time such rules and regulations as it may deem necessary to carry into effect the provisions of this Code.

(E) **Meetings.** Meetings shall be held at the call of the Chairman and at such other times as the Zoning Board of Appeals may determine. Such Chairman, or in his absence the Acting Chairman, may administer oaths and compel the attendance of witnesses. All meetings of the Zoning Board of Appeals shall be open to the public. The Zoning Board of Appeals shall keep minutes of its proceedings, showing the vote of each member upon each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Zoning Board of Appeals and shall be a public record. All testimony, objections thereto and rulings thereon shall be taken down by a reporter utilized by the Zoning Board of Appeals for that purpose.

(F) **Quorum.** **Four (4) members** of the Board shall constitute a quorum.

**40-12-3 APPEALS.**

(A) **Applicability.** Appeals to the Zoning Board of Appeals on any matter over which the Board is herein specifically granted jurisdiction may be taken by any person aggrieved or by an officer, department or board, other than the Zoning Board of Appeals, or bureau of the Village affected by any decision of the Zoning Administrator. Such appeal shall be taken within a reasonable time, as shall be prescribed by the Zoning Board of Appeals by general rule, by filing with the Zoning Administrator and with the Zoning Board of Appeals of notice of appeal specifying the grounds thereof. The Zoning Administrator shall immediately transmit to the Zoning Board of Appeals all the papers constituting the record upon which the action appealed is taken.

(B) **Stay of Proceedings.** An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning Administrator certifies to the Zoning Board of Appeals after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Zoning Board of Appeals or by a court of record on application or notice to the Zoning Administrator on good cause shown.

(C) **Time of Hearing.** The Zoning Board of Appeals shall fix a reasonable time for the hearing of the appeal, give not less than **fifteen (15) days** notice thereof in a newspaper of general circulation, as well as due notice to the parties in interest (owners or agents of property abutting or fronting upon the property involved in the appeal), and decide the same within a reasonable time. Upon the hearing, any party may appear in person or be represented by an agent or by attorney.

(D) **Fees.** A fee shall be paid to the Zoning Administrator at the time the notice of appeal is filed, which the Zoning Administrator shall submit to the Village Treasurer.

**40-12-4      POWERS OF THE ZONING BOARD OF APPEALS.**

(A)      **Powers Relating to Appeals of Administrative Decisions.** To hear and decide appeals where it is alleged there is an error in any order, requirement, decision or determination made by an administrative official in the enforcement of this Code.

(B)      **Powers Relating to Variances.** Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the adoption of this Code, or by reasons of exceptional topographical conditions or other extraordinary or exceptional situation or condition of a specific piece of property which conditions are not generally prevalent in the neighborhood and not created by the owner, the strict application of the area regulations of this Code would result in peculiar and exceptional difficulties to, or exceptional and undue hardship upon, the owner of such property, the Village Board of Trustees, after receiving a recommendation from the Zoning Board of Appeals, is hereby empowered to authorize upon an appeal relating to such property, a variance from such strict application so as to relieve such difficulties or hardships, provided such relief can be granted without substantial detriment to the public good.

(C)      **Findings.** In exercising the above-mentioned powers, the Village Board of Trustees or Zoning Board of Appeals may, in conformity with the provisions of this Code, reverse or affirm wholly or partly, or may modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision, or determination appealed from and may make such order, requirement, decision or determination as sought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken. In considering all appeals to this Code, the Village Board of Trustees and the Zoning Board of Appeals shall, before making any finding in a specific case, first determine that the proposed change will not constitute a change in the district map and will not impair an adequate supply of light and air to adjacent property, or increase the congestion in public streets, or increase the danger of fire or materially diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, comfort, morals and welfare of the Village. Every change granted or denied by the Village Board of Trustees and Zoning Board of Appeals shall be accompanied by a written finding of fact based on sworn testimony and evidence specifying the reason for granting or denying the variance.

(D)      **Vote Required.** The concurring vote of **four (4) members** of the Zoning Board of Appeals shall be necessary to reverse any order, requirement, decision, or determination of the Zoning Administrator, or to recommend in favor of the application on any matter upon which it is required to pass under this Code. The concurring vote of **four (4) members** of the Village Board of Trustees shall be necessary to grant any variance to this Code.

(E)      **Revocation of Variances.** If a variance from strict application of the Zoning Code provisions has been granted by the Village Board of Trustees for a building to be erected or altered, and a building permit has not been applied for with the Village Clerk's office within **twelve (12) months** after date of granting, the variance for such building project shall automatically be revoked. If a variance has been granted by the Village Board of Trustees for relaxation of any other dimensional regulations of this Zoning Code and the relaxation sought has not been commenced within **twelve (12) months** after the date of granting, the variance designation for such relaxation shall automatically be revoked.

The Village Board of Trustees, after a public hearing, may revoke a variance for failure of compliance with the regulations and restrictions of this Code or the requirements of the variance. **(Ord. No. 2004-06; 04-05-04)**

**40-12-5      PETITION OF PERSONS AGGRIEVED BY DECISION OF ZONING BOARD OF APPEALS.** Any person jointly or severally aggrieved by any decision of the Village Board of Trustees or Zoning Board of Appeals of the Village may present to the Circuit Court a petition duly verified, specifying the grounds of illegality and asking for relief therefrom. Such petition shall be presented to the court within **thirty (30) days** after the filing of the decision in the office of the Village Board of Trustees or Zoning Board of Appeals.

**40-13-4 PLANNING REVIEW.** Any proposed amendment, supplement, change, modification or repeal shall be first submitted to the Zoning Board of Appeals for its recommendation and report. The Board shall approve or deny, by majority vote, a recommendation for final approval or denial to the Village Board of Trustees.

**40-13-5 PUBLIC HEARING.** Upon the filing of the recommendation and report by the Zoning Board of Appeals with respect to any proposed amendment, supplement, change, modification or repeal, or upon failure to report in **thirty (30) days**, the Board of Trustees shall proceed to hold a public hearing in relation thereto. Notice shall be given of the time and place of the hearing, not more than **thirty (30)** nor less than **fifteen (15) days** before the hearing, by publishing a notice thereof at least once in **one (1)** or more newspapers with a general circulation within the Village. If any amendment, change or modification recommends a change in the district boundaries by rezoning of certain property, then such notice shall, in addition to the legal description of the property, contain a commonly recognized designation or address. **(Ord. No. 2001-19; 04-02-01)**

Notwithstanding the above, the provisions of this Section do not apply where the registered rezoning proposed is to create or add to any Single Family Residential District. **(Ord. No. 2009-11; 11-16-09)**

**40-13-7 VILLAGE BOARD OF TRUSTEES ACTION.** Upon receipt of the recommendation and report of the Zoning Board of Appeals, or after the expiration of **forty-five (45) days** from the date of the public hearing if there is no report from the Zoning Board of Appeals, the Village Board of Trustees shall vote on the amendment based on the following conditions based on the criteria in paragraphs (A) and (B).

(A) **Majority Vote Required.** Rezoning actions shall require an affirmative action by a majority of the full membership of the Village Board of Trustees.
