Contractor Information

Name: _____ Phone

Address: _____ License number

I understand that the Village of Bethalto and IEPA Regulations *prohibit* sump pump, down spouts, foundation drains, and any other surface or ground water collectors to be connected to the sanitary sewer system. Also, all sump pump connections shall be inspected at the time of installation. I hereby certify that the proposed work is authorized by the owner of record and that I have authorized by the owner to make this application as his authorized agent and we agree to conform to all applicable laws of this jurisdiction.

Signature

The 2002 edition of the Illinois State Plumbing Code, in its entirety, is the code that Village of Bethalto uses which sets forth the criteria for the installation of all plumbing. All plumbing must be installed by an Illinois licensed plumber, working under the supervision of an Illinois licensed plumbing contractor. All plumbing in residential and commercial/industrial construction must be inspected by the Village of Bethalto plumbing inspector. All Homes that equal or exceed 30 water supply fixtures for a supply system with flush tanks shall have a 1" water meter. See Load Value Chart for detailed information on fixtures. Any exterior sewer work for repair/alternation/tie in shall have a backwater valve installed per Village of Bethalto code.
